

The Cancer Resource Center of the Desert is a community organization dedicated to providing service to educate, guide, and empower the cancer patient and family through the cancer journey. Our Vision is a community without cancer.

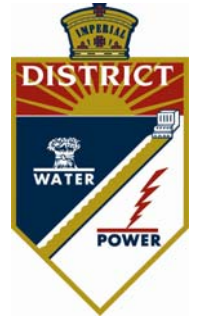

273 individuals diagnosed with cancer received services from the Cancer Resource Center of the Desert. Specific diagnosis, ages, sex, and services are reflected in the graphs above. More than 1,000 contacts with these individuals resulted in a myriad of services including over \$25,000 in direct financial assistance.

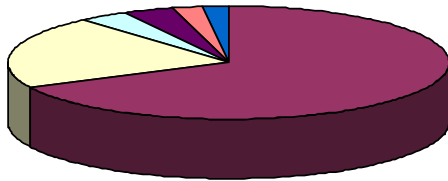

2007 Annual Report continued

The Imperial County communities have shown extraordinary generosity in support of the Cancer Resource Center of the Desert. We are especially grateful to Pioneers Memorial Healthcare District and the Imperial Irrigation District our Executive and Partner Sponsors respectively. All monies raised in Imperial County stay to assist local cancer patients in their journeys.

Francisco Lopez

THE FACE OF CRCDC

A 26 year old diagnosed with testicular cancer, Francisco was uninsured. The cancer at diagnosis had already spread to his lungs. CRCDC assisted Francisco and his family through education, advocacy, and patient navigation services while he underwent chemotherapy and two stem-cell transplants over the course of twelve months. Francisco, like many in Imperial County, needed person-to-person, face-to-face intervention by a local organization equipped to provide professional and individualized assistance. Proof positive we are *Conquering cancer one person at a time!*
